The board is populated with various electronic components including integrated circuits, capacitors, and connectors. A large white connector is visible on the left side, and two smaller white connectors are on the right. A QR code is located in the center of the board. The board is resting on a light-colored wooden surface.

This view highlights the soldered components on the reverse side, including a large array of surface-mount capacitors in the center, two large white connectors at the top, and various other electronic components. The board is resting on a light-colored wooden surface.
